Resistance to Urine:	ASTM D-543 – No Staining
Colour Fastness:	AATCC-16A-90 100 hrs. Class 4-5 - Little to no change
Cleaning Code:	SW

Ovation is made of Nytek, a specially engineered nylon fiber matrix. These products are designed with a built-in stain resistance finish that will not wash or wear off.

Ordinary dirt, smudges and water soluble stains can be removed with mild soap and water. i.e. coffee, tea, juice, soft drinks, milk beer, wine. Use a clean cloth to dab the stain with soapy water. Remove the soap solution by wiping the area with a cloth and clean water. Dry with a soft lint free towel.

Very stubborn stains or non-water soluble stains can be removed with mild solvent such as naphtha, lighter fluid or paint thinner. Lightly wipe the stain with a clean cloth moistened with solvent. Blot the area with a dry towel and allow to air dry.

Environmentally Friendly Product

PVC Free 100% Nytek.
Soft full leather feel and grip.
Affordable luxury with superior performance.

Many ink and magic marker stains can be removed using a solution of one part Wisk detergent and one part rubbing alcohol. Dab lightly with solution and avoid rubbing. As the ink loosens, blot the area with a dry cloth. Repeat if necessary. Rinse with a clean damp cloth and dry with a soft towel.

For commercial installations, avoid using cleaners containing abrasives or bleach. Disinfectants can be used, provided they are evaluated beforehand.
